

PRESS RELEASE

**Mitsubishi Electric Europe B.V. German Branch
becomes a member of CharIN e.V.**

Ratingen, 09. November 2020 – Mitsubishi Electric Europe B.V. German Branch is pleased to announce its acceptance as a member of the Charging Interface Initiative e. V. (CharIN). From the perspective of a manufacturer covering the supply of Power Semiconductors for a broad range of applications, Mitsubishi Electric Europe B.V. German Branch is glad to be able to contribute to the existing broad base of experts from different industries in CharIN to support the definitions of the requirements of combined charging systems and the future developments.

Mitsubishi Electric is a leading manufacturer of Power Semiconductors as key parts of the control systems of electric power, in e-mobility as well as in renewable energies, energy storage, power transmission and distribution, railway technology and others. Mitsubishi Electric pioneered the mass production of power modules for hybrid vehicles in 1997 and is today a supplier of power semiconductors to the various categories of xEV. In industrial applications related to e-mobility, Mitsubishi Electric supplies power devices to manufactures of charging stations to ensure efficient High Power DC charging.

The environmental statement of the Mitsubishi Electric Group "Eco Changes" expresses the ambition to work together with our partners on technology leading to CO₂ reduction to globally change the environment for the better.

About Mitsubishi Electric

With nearly 100 years of experience in providing reliable, high-quality products, Mitsubishi Electric Corporation is a recognized world leader in the manufacture, marketing and sales of electrical and electronic equipment used in information processing and communications, space development and satellite communications, consumer electronics, industrial technology, energy, mobility and building technology, as well as heating, cooling and air-conditioning technology.

Embracing the spirit of its corporate statement, Changes for the Better, and its environmental statement, Eco Changes, Mitsubishi Electric endeavours to be a global, leading green company, enriching society with technology.

With around 146,500 employees the company recorded consolidated group sales of 40.9 billion US Dollar* in the fiscal year ended March 31, 2020.

Our sales offices, research & development centres and manufacturing plants are located in over 30 countries.

Since 1978, Mitsubishi Electric is represented in Germany as a branch of Mitsubishi Electric Europe. Mitsubishi Electric Europe is a wholly owned subsidiary of Mitsubishi Electric Corporation in Tokyo.

** At an exchange rate of 109 yen to the US dollar, the rate given by the Tokyo Foreign Exchange Market on March 31, 2020*
